

Guidelines for Capturing Palmprints and Supplementals

Guidelines for Capturing Palmprints and Supplementals

General Overview:

- The FBI will implement palmprint and supplemental print search capabilities as part of its Next Generation Identification (NGI) effort
- As of July 2010, the FD-884 (10-28-99) and FD-884a (5-07-07) have been revised and will be available in the near future. This guideline represents the final state, in which the only change made is the orientation of the text within the same capture block. Existing cards will be accepted; however, please ensure that the capture of the friction ridge information is oriented as depicted within this guide
- Orientation guidelines are provided for your reference

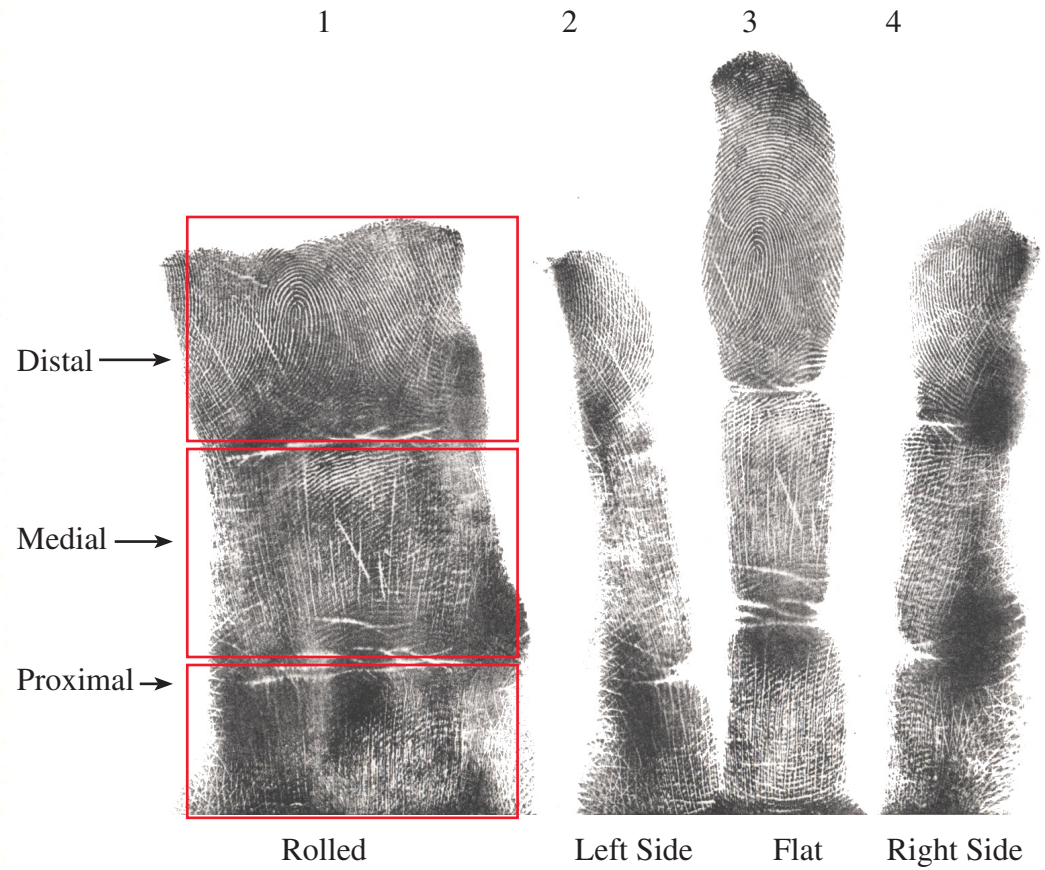

Hand with basic regions noted:

Hand with basic regions noted:

MIDDLE

Note: For more information please see Electronic Biometric Transmission Specification (EBTS) at www.fbibiospecs.org

Form 884: Palmprint Card (Front Side)

- This guide is for print orientation purposes only
- To ensure standard capture of each print, all fingers/tips/palms must be oriented in the direction of the text within the capture block
- Each impression must be captured completely within the box provided in a vertical, upright position

Writer's Palm Impression:

- Ulnar side of hand placed in a vertical, upright position with base of wrist in line with edge of card and fingertip oriented in direction of text within the capture block

Palm Impression

- Circle left or right palm orientation
- Orientation of palm must mirror image of palm illustration in a vertical, upright position with base of wrist in line with edge of card and fingertips oriented in direction of image

IDENTIFICATION NO.	LAST NAME	FIRST NAME	MIDDLE NAME	SID NUMBER	FBI NUMBER
DATE PRINTED	SIGNATURE OF OFFICIAL TAKING PRINTS		ID NUMBER	CONTRIBUTOR (ORI)	

The image shows a palmprint card with several impressions. At the top, there are fields for identification information. Below these are two impressions: a 'WRITER'S PALM IMPRESSION' and an 'INDEX FINGER' impression. A blue circle highlights a small diagram of a left hand on the left side of the card. A red diagram of a right hand is on the right side. The bottom half of the card features a large, detailed palm impression of the entire hand.

Index Finger:

- Roll finger with tip oriented in direction of text within the capture block

Note: Purpose is to verify palmprint with tenprint

Form 884: Palmprint Card (Back Side)

- This guide is for print orientation purposes only

Thumb/Index/Middle/Ring/Little:

- Using the same hand printed on the front side of the card, roll each finger in the appropriate block
- Each impression must be captured completely within the capture block provided in a vertical, upright position with fingertips oriented in the direction of text

Note: Area above rolled prints needs to remain blank

Form 884a: Supplemental Finger and Palmprint Card (Front Side)

- This guide is for print orientation purposes only
- To ensure standard capture of each print, all fingers/tips/palms must be oriented in the direction of the text within the capture block
- Each impression must be captured completely within the box provided in a vertical, upright position

Note: Select Left or Right hand. Images must be captured in the following sequence: *fully rolled*, *left edge*, *flat*, *right edge* impressions

Thumb Tip:

- Orient tip of thumb in direction of text within the capture block

Thumb:

- Orient thumb in direction of text within the capture block
- Capture one *fully rolled* thumb impression
- Capture one *left edge* thumb impression
- Capture one *flat* thumb impression
- Capture one *right edge* thumb impression

	THUMB	INDEX
	THENAR	 Ball of Palm from One Hand or 

Index Tip:

- Orient tip of index finger in direction of text within the capture block

Index:

- Orient index finger in direction of text within the capture block
- Capture one *fully rolled* index finger impression
- Capture one *left edge* index finger impression
- Capture one *flat* index finger impression
- Capture one *right edge* index finger impression

Thenar:

- Orient ball of palm in the direction of text within the capture block with base of wrist in line with edge of card
- Obtain an impression

Form 884a: Supplemental Finger and Palmprint Card (Back Side)

- This guide is for print orientation purposes only

Little Tip:

- Orient tip of little finger in direction of text within the capture block

Note: Select Left or Right hand. All impressions must be captured in a vertical, upright position

Middle Tip:

- Orient tip of middle finger in direction of text within the capture block

Middle:

- Orient middle finger in direction of text within the capture block
- Capture one *fully rolled* middle finger impression
- Capture one *left edge* middle finger impression
- Capture one *flat* middle finger impression
- Capture one *right edge* middle finger impression

Little:

- Orient little finger in direction of text within the capture block
- Capture one *fully rolled* little finger impression
- Capture one *left edge* little finger impression
- Capture one *flat* little finger impression
- Capture one *right edge* little finger impression

Ring Tip:

- Orient tip of ring finger in direction of text within the capture block

Ring:

- Orient ring finger in direction of text within the capture block
- Capture one *fully rolled* ring finger impression
- Capture one *left edge* ring finger impression
- Capture one *flat* ring finger impression
- Capture one *right edge* ring finger impression

Contact and Ordering Information

- As of July 2010, the FD-884 (10-28-99) and FD-884a (5-07-07) have been revised and will be available in the near future. Existing cards will be accepted; however, please ensure that the capture of the friction ridge information is oriented as depicted within this guide
- To order revised FD-884 (7-02-10) (Palmprint) and revised FD-884a (7-02-10) (Supplemental Finger and Palmprint) cards at no charge from the FBI, contact the Fingerprint Supply Center at 304-625-3983 or visit our website: www.fbi.gov/hq/cjisd/forms/orderingfps.htm
- For livescan submissions, please refer to the Electronic Biometric Transmission Specification (EBTS), available at www.fbibiospecs.org
- Additional questions: Contact the Customer Service Group at 304-625-5590 or liaison@leo.gov
- Submit comments regarding palmprint cards and/or this guide to the Criminal Justice Information Services Division at latentservices@leo.gov
