IDAHO STATE POLICE PROCEDURE

07.12 PATROL RADIO OPERATIONS

A. General

All radio transmissions must be in accordance with Federal Communications Commission (FCC) regulations 47 CFR 90. The station call sign is broadcast as part of another transmission on or near the half-hour.

1. Transmissions must be made in a professional manner:
    a. keep voice modulation as neutral, natural and calm as possible;
    b. make information organized, impersonal and concise;
    c. enunciate clearly;
    d. avoid hesitation;
    e. use "plain English", the law enforcement phonetic alphabet and department designated codes and phrases listed in this procedure;
    f. for brevity, use short phrases with "please" and "thank you" implied rather than stated;
    g. personnel do not argue or dispute information over the air; and
    h. any complaints or criticism are to be routed through the employee's proper chain of command.

2. Radio System
    a. Regional Communications Officers (RCOs) and Troopers use car-to-car, auxiliary channels or talk groups, or request phone calls for non-priority radio traffic.
    b. patching may be done to allow simultaneous transmissions
        1) All-Call channels can be patched.
            a) All-Call channels cannot be patched to other All-Call channels, as they are the same frequency and will cause interference; and
            b) Patching All-Calls should be done sparingly.
        2) If an encrypted talk-group is patched to an unencrypted talk group or channel, patching will remove the encryption from all communication and/or move to a different encryption function.
    c. EMER functionality is only applicable when a radio is affiliated/operating on the 700 MHz Motorola Trunked radio system.
    d. PII and other sensitive information may be broadcast on designated encrypted channels.

3. The home phone number, address or schedule of department personnel will not be transmitted over the air, nor will they be given to non-ISP personnel without prior approval. An Encrypted channel can be used to provide this information to Troopers, so long as the channel is not patched.

4. RCOs and Troopers use the following designations:
    a. the RCO is "Control";

IDAHO STATE POLICE PROCEDURE

     b. Troopers' designations or unit numbers are their patrol car numbers;

     c. designators for others using RCC resources are assigned by their respective agencies.

5. When Control initiates communications with a patrolling Trooper, the Trooper acknowledges with his or her designation and specific location.

6. ISP personnel follow guidelines established in the CAD Manual Companion.

7. The use of texting/messaging platforms are not authorized for updating a Trooper status or requests.

8. RCOs must broadcast officer safety related Attempt To Locate (ATL) information immediately upon receipt.

9. RCOs complete a daily "recap" of pertinent information to include officer safety related ATL information.

10. RCOs use military time for all communication with Troopers and reporting, but revert to standard time when communicating with the public.

11. Numbers and letters are grouped and read in series of three except the following which are given as they appear:
     a. telephone numbers;
     b. Social Security numbers;
     c. street addresses having more than three numbers; and
     d. dates of birth given numerically: month, then day followed by year. (MMDDYYYY)

12. Specific examples of transmission formats are at the end of this procedure.

B. Definitions

"Code Four (4)" means that the Trooper is okay. This is a response to status and security checks when appropriate.

"Code Six Charles (6C)" means a felony hit. Protection orders, concealed weapons permits, sex offender registrations, state and federal probation and parole records or similar information are not considered to be a "Code Six Charles."

"Code Six Mary (6M)" means a misdemeanor hit. Typically, the warrant is geographically limited. Protection orders, concealed weapons permits, sex offender registrations, state and federal probation and parole records or similar information are not considered to be a Code Six Mary."

IDAHO STATE POLICE PROCEDURE

"Code Seven (7)" means the Trooper is leaving the patrol vehicle for a break. Troopers must specify location and wait for the RCO to acknowledge before exiting the vehicle.

"Code Six Victor" means there is a return from the Threat Screening Center File.

"Code One Thousand (1000)" means a Trooper is taken hostage.

"In service" means the Trooper is now working. Troopers must specify planned work activities if different from a standard patrol shift.

"Out of service" means the Trooper is now off work.

"Registered Offender" means the subject is listed on a sex offender registry.

C. Officer Safety Activities

1. Radio traffic takes precedence over telephone, teletype and other kinds of communications traffic.

2. Monitor radio traffic at all times.

3. Perform a status check when there has been no contact with a patrolling Trooper for one hour.

4. Unless otherwise specifically requested by the Trooper, conduct a security check 10 minutes after the last contact with a Trooper on traffic stops or other incidents.

5. Immediately perform an NCIC/IHOT inquiry on every license plate.

6. Broadcast pertinent information to allow Troopers to choose the appropriate response code **including any known or possible weapons involved**.

7. Broadcast criminal and driver history information only when it indicates an officer safety concern.

8. RCOs should not broadcast information without trooper acknowledgment first. (Examples: giving tow information, back up assist information, etc.)

D. Radio Tones

1. Alert tones are used for the following:
   a. crimes in progress;
   b. injury and unknown injury crashes;
   c. applicable traffic stops involving warrants ;

IDAHO STATE POLICE PROCEDURE

       d. Trooper needs help/backup; or

       e. other critical incidents.

  2. Marker tones **may** be used for the following:

       a. felony arrests; and

       b. other critical incidents.

E. Standard Descriptors

Descriptors are transmitted in the following order with any unavailable information omitted.

Person:

1. name;	6. weight;	10. physical marks
2. race;	7. hair;	such as scars, limp,
3. gender;	8. eyes;	tattoos, or other
4. age;	9. complexion;	distinguishing features
5. height;		

Clothing:

1. hat;	4. shirt;	7. other.
2. coat;	5. shoes;	
3. trousers/pants;	6. socks;	

Vehicle descriptors are transmitted in "CYMBALS" order as follows:

1. **C**olor;	4. **B**ody style; **a**nd
2. **Y**ear of manufacture;	5. **L**icense plate number;
3. **M**ake;	6. **S**tate.

F. Phonetic Alphabet

  1. Use the phonetic alphabet for those letters that may be mistaken for another of similar sound, such as d-b, s-f, p-b, or m-n.

  2. Uncommon or different names, names with multiple spellings, or names with similar sounds are pronounced then spelled phonetically starting with the last name first.

  3. Always use the phonetic alphabet when transmitting license plate information.

Adam	**H**enry	**O**cean	**V**ictor
Boy	**I**da	**P**aul	**W**illiam
Charles	**J**ohn	**Q**ueen	**X**-ray
David	**K**ing	**R**obert	**Y**oung
Edward	**L**incoln	**S**am	**Z**ebra
Frank	**M**ary	**T**om	
George	**N**ora	**U**nion	

IDAHO STATE POLICE PROCEDURE

G. Dispatch to a Call for Service

 1. RCOs broadcast the type of call, the location and other pertinent information.
 2. Troopers acknowledge with their unit numbers and location.
 3. The closest unit informs the RCO that he/she is en route.

H. Relay of Requests for Phone Calls

RCOs relay a request for a phone call to a Trooper by broadcasting "'unit number', call request on the CAD screen. The call may be emailed, broadcasted on an encrypted channel or completed by phone.

I. Leaving the Patrol Vehicle

(Follow the appropriate CAD Command Protocol) CAD Manual Companion.

Below is the procedure for a traffic stop requiring enforcement. For other types of contacts refer to the CAD Command Protocol:

 1. The Trooper broadcasts "Control, 'unit number', traffic" then waits for the RCO to acknowledge the broadcast with "'unit number'".

 2. The Trooper continues with the stop location in the following format: broadcast by first stating the direction of travel, the highway designation (where applicable), the highway number (where applicable) and the milepost (where applicable), the license plate number and state if other than Idaho, a description of the vehicle if the plate is unavailable or illegible, or a description of the subject if a vehicle is not involved.

 3. The Trooper waits to exit the vehicle until the RCO acknowledges the information with the unit number and time unless there are extenuating circumstances.

 4. The RCO performs an NCIC/IHOT inquiry on every license plate checking for wants and warrants or other officer safety information.

 5. If the Trooper requests registration information and there are no positive NCIC/IHOT returns, the RCO responds with the Trooper's 'unit number', and the expiration date, color, year, make and body style of the vehicle from the registration and any other pertinent information.

 6. If there is a felony return, the RCO responds with the Trooper's 'unit number' and Code Six Charles (see Code Six Charles protocol).

IDAHO STATE POLICE PROCEDURE

7. If there is a misdemeanor return, the RCO responds with the Trooper's 'unit number' and Code Six Mary (see Code Six Mary protocol).

8. If there is a Threat Screening Center return, the RCO responds with the Trooper's 'unit number' and Code Six Victor (see Code Six Victor protocol).

9. For other incidents requiring the Trooper to leave the patrol vehicle:
    a. the Trooper broadcasts "Control, 'unit number', CAD call type, location" then waits for the RCO to acknowledge the broadcast with "'unit number', time";
    b. if the location has a lengthy name or more than one unit is also checking out, the Trooper broadcasts "Control, 'unit number', CAD call type" then waits for the RCO to acknowledge the broadcast with "'unit number'" before continuing with location information;
    c. the RCO confirms with the Trooper if there are any doubts about whether to perform security checks.

J. Driver's License Checks

1. The Trooper broadcasts "Control, 'unit number', driver's check" then waits for the RCO to acknowledge with "'unit number'".

2. The Trooper continues with the driver's name and date of birth (DOB) following the proper format of stating the month, the day, followed by the entire year (MMDDYYYY), and state if other than Idaho.

3. The RCO documents this information in CAD and acknowledges with the unit number and time unless there are extenuating circumstances.

4. When the Trooper requests the query using a name and DOB:
    a. the RCO performs an NCIC/IHOT driver's license query checking for wants and warrants utilizing the ILETS/NCIC/NLETS system or other officer safety information;
    b. the RCO completes a driver's license query of the original state requested and Idaho;
    c. if there are no positive NCIC/IHOTS returns, the RCO responds with the Trooper's 'unit number', the subject's last name, the expiration date, restrictions and status from the driver's license file, and any other pertinent information;
    d. if there is a <u>felony</u> return, the RCO responds with the Trooper's 'unit number' and Code Six Charles (see Code Six Charles protocol);
    e. if there is a misdemeanor return, the RCO responds with the Trooper's 'unit number' and Code Six Mary (see Code Six Mary protocol).

5. If the Trooper requests the query using the OLN, the RCO provides only the specific information requested by the Trooper; OLN does not check NCIC.

IDAHO STATE POLICE PROCEDURE

6. Only the following types of driver's history information is broadcast:
   a. DUI convictions;
   b. convictions which are needed for issuance of enhanced citations ; and
   c. if the current driver's license status is suspended, the date of and reason for the suspension along with the date the subject will be eligible for reinstatement.

7. To perform a registration query upon request from a Trooper:
   a. document the information in CAD;
   b. if there are no positive NCIC/IHOTS returns, respond with the Trooper's 'unit number,' and the expiration date, color, year, make and body style of the vehicle from the registration and any other pertinent information;
   c. implement the applicable Code Six Charles or Code Six Mary protocol if a positive NCIC/IHOT return is received.

8. To perform a criminal history check upon request by a Trooper;
   a. only officer safety related information, DUI Conviction dates, and confirmation of any drug convictions is broadcast;
   b. triple I checks are run based upon the established criteria by NCIC/ILETS.

K. Code Six Charles

1. Code Six Charles exists for any felony return from NCIC. This includes missing person, stolen vehicles etc.

2. An RCO indicates a felony return by stating the Trooper's unit number and Code Six Charles.

3. The RCO **does not broadcast further information until requested by the Trooper** to allow the Trooper to move out of the subject's vicinity.

3. The RCO retains a copy of the positive extraditable <u>felony</u> response.

4. Once the Trooper is ready to receive the information, the Trooper must tell the RCO to "**go ahead**".

5. The RCO provides the Trooper with the type of return, the information and caution/alert codes.

6. The Trooper determines if the subject is a match or possible match and advises the RCO accordingly

7. If the subject is a match and the hit appears to be extraditable, the RCO:
   a. activates the alert tone;
   b. clears the air for emergency traffic only;

    c. broadcasts "All units, clear the air for emergency traffic, 'unit number' has a Code Six Charles at location";

    d. contacts the closest local agency for assistance if no ISP units are available within a reasonable time frame;

8. The closest unit(s) acknowledges and responds to the scene with additional units proceeding to the area as needed.

9. The RCO:
    a. immediately requests verification of the warrant, extradition confirmation and any additional pertinent information from the originating agency by telephone **and/or** by using the ILETS YQ mask;
    b. The RCO retains a copy of the query and response;
    c. advises the originating agency of a positive match;
    d. adds the name of the person(s) who confirms the return plus any unusual circumstances to the incident history and immediately notifies the Trooper when the warrant has been confirmed; and
    e. once the subject is in custody, completes a "record located" entry on ILETS and retains a copy of the "record located.".

10. If the ILETS/NCIC hit states the originating agency will not extradite, the RCO confirms with the Trooper on whether he/she would like the air cleared. Clearing the air for a non-extraditable warrant is at the discretion of the Trooper.

11. Normal broadcast operations are resumed when the Trooper broadcasts "Control, 'unit number', units are Code 4, 'number' in custody (if applicable)";

12. The RCO resumes normal traffic.

13. The Trooper may choose not to implement the Code Six Charles protocol for the following types of situations:
    a. stolen articles;
    b. missing persons;
    c. when subjects are already in custody and the Trooper is Code Four when the positive response is received; or
    d. abandoned stolen vehicles.

L. Code Six Mary

1. An RCO indicates a misdemeanor return by stating the Trooper's unit number and Code Six Mary.

2. The RCO **does not broadcast further information** to allow the Trooper to move out of the subject's vicinity.

3. The RCO retains a copy of the positive extraditable misdemeanor response.

4. Once the Trooper is ready to receive the information, the Trooper advises the RCO to "**go ahead**".

5. The RCO provides the Trooper with the information and caution/alert codes.

6. The Trooper determines and notifies the RCO if the subject is a match or possible match and advises the RCO accordingly.

7. The RCO:
   a. immediately requests verification of the warrant, extradition, confirmation and any additional information from the originating agency by telephone and/or by using the ILETS YQ mask;
   b. the RCO retains a copy of the query and response;
   c. advises the originating agency of a positive match;
   d. adds the name of the person(s) who confirms the return plus any unusual circumstances to the incident history and immediately notifies the Trooper when the warrant has been confirmed; and
   e. once the subject is in custody, completes a "record located" entry on ILETS and retains a copy of the "record located" printout.

8. Troopers may choose to implement the Code Six Charles protocol for misdemeanor returns if they deem it necessary, but must notify the RCO of that request for implementation.

M. Code Six Victor

1. An RCO indicates a return from the Threat Screening Center file by stating the Trooper's unit number and Code Six Victor.

2. The RCO does not broadcast further information until requested by the Trooper to allow the Trooper to move out of the subject's vicinity.

3. Once the Trooper is ready to receive the information, the Trooper advises the RCO to "**go ahead**".

4. The RCO informs the Trooper the nature of the return by providing 1 of 5 different NCIC handling codes.
   a. "Handling Codes 1 through 5"- This person is of investigative interest and there may be a detainer:
   b. nothing further is broadcast unless an emergency situation exists; and

IDAHO STATE POLICE PROCEDURE

      c. per NCIC policy all information pertaining to the hit is relayed via telephone or on an encrypted channel and not saved into any database.

      d. the Trooper does not detain the subject unless confirmation of a warrant is made;

      e. the Trooper should not alert the subject to an alerting authority's interest.

      f. the Trooper does not extend the scope or duration of the encounter based on this handling code;

    5. The Trooper determines if the subject is a match or possible match and advises the RCO accordingly.

N. Code One Thousand – Officer Taken Hostage

    1. The Trooper advises the RCO by broadcasting his or her unit number followed by "ISP".

    2. The Trooper continues to use this designation until the hostage situation is resolved.

    3. The RCO simultaneously broadcasts "Code One Thousand" on all applicable ISP channels.

    4. The RCO immediately contacts the shift supervisor in person or by telephone.

    5. **Normal radio traffic continues and no other reference or radio traffic is broadcast concerning the hostage situation**. No security checks are performed.

    6. All units receiving the "Code One Thousand" **telephone** the RCC as soon as possible for further information and deployment;

    7. If possible, the RCO telephones patrol Troopers who are out of their vehicles at the time of the Code One Thousand broadcast.

    8. The RCO advises the nearest ISP Investigations office of situation.

O. Officer Needs Help or Backup

    1. A Trooper requests help or backup when assistance is needed.

    2. The Trooper broadcasts "Control, 'unit number', request help/backup with a brief description of the situation" including the appropriate response code:

      a. Code 1 – normal driving;

      b. Code 2 – more urgent;

      c. Code 3 – lights and sirens, urgent/critical.

    3. The RCO:

      a. dispatches another unit or agency;

    b. advises the patrol shift supervisor if the situation is an emergency.

  4. The assisting unit may be cancelled at the discretion of the requesting Trooper.

P. Pursuits

Pursuits are handled in accordance with ISP procedure 06.13 Pursuits.

Q. Status Checks

  1. RCOs perform status checks on all applicable channels after **one hour** of no contact with a patrolling Trooper.

  2. Troopers respond with their status and specific location.

  3. If the Trooper does not respond, the RCO waits **five (5) minutes** then performs another status check.

  4. If the Trooper does not respond to the second status check, the RCO:
    a. attempt to contact on State cell phone;
    b. broadcasts an ATL to other units and agencies; and
    c. performs another status check in **five (5) minutes**.

  5. If the Trooper does not respond to the third status check, the RCO:
    a. notifies the Patrol shift supervisor;
    b. if applicable, dispatches a unit to drive past the Trooper's residence:
      1) if the patrol unit is at the residence, telephones the residence to check the Trooper's status; or
      2) re-contacts the Patrol shift supervisor immediately with the information.

  6. The RCO logs every attempt to contact or locate the Trooper, the results of each attempt, and all related actions in the unit history.

  7. RCOs may perform status checks more frequently at their discretion.

  8. If a trooper is traveling across the state in a marked unit, the RCO will continue to status check the trooper. Troopers should not request no status checks while traveling in a marked unit.

R. Security Checks

  1. RCOs perform security checks whenever a patrolling Trooper conducts a traffic stop or other activity that may involve officer safety concerns.

IDAHO STATE POLICE PROCEDURE

2. The RCO performs the first security check **ten (10) minutes** after the last contact with the Trooper, except when:
    a. a Commercial Vehicle Safety (CVS) or Hazardous Materials (HM) Specialist is conducting an inspection, then the security checks will be at twenty (20) minute intervals;
    b. the Trooper is at the scene of a crash; or
    c. the Trooper is involved in a lengthy transport or some other activity and advises the RCO security checks are not necessary. This information is added to the unit history.
    d. The Trooper informs the RCO, "I'm code 4, no security checks are needed."

3. If the Trooper does not respond, the RCO:
    a. waits **two (2) minutes** then performs another security check;
    b. notifies the Patrol shift supervisor; and
    c. dispatches additional unit(s) to the Trooper's last known location.

4. The RCO continues security checks at one-minute intervals until the incident is concluded.

5. The RCO logs every attempted security check, the results of each attempt and all related actions in the unit history.

6. RCOs may perform security checks more frequently at their discretion.

S. Communicating with ISP MOU Agencies (Fish and Game, P&P etc.)

1. The officer will check in and out of service with the appropriate RCC

2. When the officer checks in service, they should provide the expected out of service time and the area in which they will be working. If not provided, the RCO will do status checks per policy.

3. If the officer goes on a contact the RCO will security check them per policy.

4. If an officer goes one hour past their expected out of service time, the RCO will attempt to contact them by cell phone. If no contact is made, contact that unit's supervisor.

IDAHO STATE POLICE PROCEDURE

T. Sample Broadcast Formats

1. In Service or Out of Service

Calling Unit	Broadcast
449	"Control, 449, in service."
or	
449	"Control, 449, in service, court."
or	
449	"Control, 449, out of service."
Control	"449, 1714."

2. Dispatch to a Call for Service (Crash)

Calling Unit	Broadcast
Control	Activate alert tone if injury or unknown injury crash. "Local units, injury crash, westbound I-86/61.
405	"405, US 91 and East Chubbuck Road"
449	"449, I-15/67"
506	"506, I-15/80"
405	"Control, 405, enroute."
Control	"405, 2025 (and call sign if on or near the half-hour)."
To update units with information:	
Control	"405, two vehicle injury crash, westbound I-86/61, partial blockage."

3. Other Than Traffic Stop

Calling Unit	Broadcast
400	"Control, 400, Court, Bannock County Courthouse."
Control	"400, 1415 (and call sign if on or near the half-hour)."
Or	
400	"Control, 400, Investigation."
Control	"400."
400	"Crash follow-up at 11173 Adios Street at John Brown's residence, phone number 333-5632."
Control	"400, 1632."
or	
400	"Control, 400, CAD Call Type."
Control	"400."
400	"With 458, 524 at Jane Smith's office, 1313 Main in Ketchum."

IDAHO STATE POLICE PROCEDURE

Control	"400, 458, 524, 1514." or "400, units, 1514."

4. Traffic Stop

Calling Unit	Broadcast
400	"Control, 400, Traffic."
Control	"400."
400	"Westbound I-84/60, 123 adam boy charles, Washington."
Control	"400, 1415."
(Radio traffic can continue with a Registration Query, then may continue with a Driver's License Query, a Code Six Charles, a Code Six Mary, or other formats.)	

5. Registration Query

Calling Unit	Broadcast
448	"Control, 448, Registration."
Control	"448."
448	"1adam 5432."
Control	"448, 1415."
To update units with registration information and no NCIC/IHOTS hits:	
Control	"448. expires 4 2024, Red 2020 Ford Explorer, Steve Jones, Pocatello"
To update units with felony hit, see Code Six Charles.	
To update units with misdemeanor hit, see Code Six Mary.	

6. Driver's License Query

Calling Unit	Broadcast
484	"Control, 484, Driver's check."
Control	"484."
484	"Smith, John Q., 10 09 1971."
Control	"484, 1130."
To update units with driver information and no NCIC/IHOTS hits:	
Control	"484, Smith, 2026, clear."
484	"484."
To update units with felony hit, see Code Six Charles.	
To update units with misdemeanor hit, see Code Six Mary.	
(Radio traffic may continue with a Code Six Charles, a Code Six Mary, or other formats.)	

IDAHO STATE POLICE PROCEDURE

7. Code Six Charles

Calling Unit	Broadcast
(This format will be used with a felony hit.)	
Control	"520, Code Six Charles."
520	"520."
(RCO will wait for trooper direction to proceed by the trooper clearly stating, "go ahead.")	
520	"Control, 520, **go ahead**."
Control	"520, (caution/alerts) Smith, John Q., white male adult, 1975 09 26, 511, 215, brown and brown, swastika tattoo on left forearm, wanted in Iowa for bank robbery."
520	will advise either a positive or negative match
If the Trooper advises it is a positive match:	
Alert tone is activated. "All units, clear the air for emergency traffic, 520 has a Code Six Charles at westbound I-90/15 unit(s) unit to back"	
To confirm valid warrant:	
447	"SH41/10, enroute."
464	"I90/1, enroute."
Control	"447, 464, 1514."
Control	"Have contacted ORI, confirm it is a valid warrant, will extradite."
464	"Control, 464, out with 520."
Control	"464, 1518.
447	"Control, 447, out with 520."
Control	"447, 1519."
(RCO will wait to perform security checks until this situation is resolved. RCO will not resume normal radio traffic until specifically directed by a Trooper on the scene.)	
464	"Control, 464, units are Code Four with one in custody. **Resume normal traffic**."
Control	"464, 1528. All units resume normal traffic."

8. Code Six Victor

Calling Unit	Broadcast
Control	"520, Code Six Victor."
520	"520."
(RCO will wait for Trooper direction to proceed by the Trooper clearly stating "go ahead.")	
520	"Control, 520, **go ahead**."
Control	520, Handling Code 2 "

520	Will call in via phone for all information on the hit or aired on an encrypted channel.
At this time 520 may request another unit or the air cleared for emergency traffic. RCOs do not automatically send back up or clear the air for a Code Six Victor.	

9. Code Six Mary

Calling Unit	Broadcast
(This format will be used with a misdemeanor hit.)	
Control	"520, Code Six Mary."
520	"520."
(RCO will wait for Trooper direction to proceed by the Trooper clearly stating "go ahead.")	
520	"Control, 520, **go ahead**."
Control	"520, Smith (caution/alerts), John Q., white male adult, 09 26 1945, 511, 215, brown and brown, swastika tattoo on left forearm, warrant out of Blaine County for DUI, DWP, failure to appear, $2,500 bond, cash only day or night."
520	will advise either a positive or negative match
At this time 520 may request another unit or the air cleared for emergency traffic. RCOs do not automatically send back up or clear the air for a Code Six Mary.	
To confirm valid warrant:	
Control	"Have contacted ORI, confirm it is a valid warrant, will extradite."
520	"520."
520	"Control, 520, Code Four with one in custody."
Control	"520, 1528."

10. Code Seven

Calling Unit	Broadcast
559	"Control, 559, Code Seven at Pizza Hut on Glenwood in Garden City."
Control	"559, 1735 (and station identification if on half-hour)."
Or	
559	"Control, 559, Code Seven."
Control	"559."
559	"and 529 at Joe's All American Blue Cheese Grill and Deli near Dworshak State Park."
Control	"559, 529, 1735 (and station identification if on the half-hour)."
(Troopers will monitor their portable radios, if issued, for pertinent calls of service.)	

IDAHO STATE POLICE PROCEDURE

11. Code One Thousand

Calling Unit	Broadcast
400	"Control, 400 ISP."
Control	"Code One Thousand." Broadcast on all applicable ISP channels.
(Normal radio traffic will continue. All other activities related to the Code One Thousand will be in person or by telephone.)	

12. Pursuit

Calling Unit	Broadcast
