What deaths should be reported?

❖ Arrest-related deaths include deaths that occurred when:

- A. The death results from use of force by law enforcement, or
- B. The event causing the death (e.g., self-inflicted injury, cardiac arrest, fall from a height, or drowning) occurred while the freedom to leave of the person who subsequently died was restricted by law enforcement personnel. This includes all deaths that—
 - Occurred while the decedent's freedom to leave was restricted by law enforcement prior to, during, or following an arrest (includes traffic stops);
 - Resulted from any use of force by law enforcement personnel acting in an official capacity (e.g., officer-involved shootings or accidental deaths caused by non-lethal weapons);
 - Were due to medical conditions present during an arrest process that resulted in death (e.g., cardiac arrest);
 - Occurred during transport to or from a law enforcement agency or a detention, incarceration, or medical facility;
 - Occurred while the decedent was held in a lockup or booking center (i.e., a facility designed to hold detainees for 72 hours or less);
 - Occurred during an interaction with law enforcement personnel while they were responding to a medical or mental-health incident (e.g., response to suicidal persons).

❖ Deaths in custody at a Jail, Detention or Correctional Facility include all persons:

- Confined in your facilities, whether housed under your jurisdiction or that of another jurisdiction.
- Under your jurisdiction but housed in private facilities, whether located in or out of state.
- Under your jurisdiction but in special facilities (e.g., medical/treatment/release centers, halfway houses, police/court lockups, or work farms).
- In transit to or from your facilities while under your supervision.
