

Colonel Ralph Powell
Director

Idaho State Police

Service since 1939

C.L. "Butch" Otter
Governor

January 17, 2014

John Neuner
ASCLD/LAB-*International*
139 J Technology Drive
Garner, NC 27529

The purpose of this communication is to provide ASCLD/LAB with confirmation that the Idaho State Police Forensic Services Labs are compliant with all the requirements listed in the new policies on **Measurement Traceability** and **Measurement Uncertainty**. The laboratory system quality manual, individual discipline analytical methods, discipline quality manuals, and discipline training manuals have all been updated for compliance. Laboratory staff have all been trained on the new policies and procedures implemented by the laboratory. The laboratory system certifies that all three of our laboratories (Meridian ALI-040-T, Pocatello ALI-041-T, and Coeur d'Alene ALI-042-T) are in compliance with ASCLD/LAB-*International* under the ISO 17025:2005 standards and 2011 supplemental specific to forensic labs.

Sincerely,

Matthew Gamette, Quality Manager
Idaho State Police Forensic Services
