Question: What type of criminal offenses would prevent me from receiving and/or keeping an alcohol license?

Answer: A person is not qualified to have an alcohol license if within three years prior to making application they have been convicted of any law of Idaho, any other state of the United States regulating, governing or prohibiting the sale, manufacture, transportation or possession of alcoholic beverages or intoxicating liquors or forfeited any bond for failure to appear for any such charges. A person is also not qualified to have an alcohol license if within five years prior to making application they have completed any term of sentence, received a withheld judgment or paid any fine for any felony conviction. The date starts from the date they were released from confinement or completed parole or probation as part of their sentence.
