Identifying Human Remains in Bonner County – *Hoo Doo* ***Mountain UHR Case***

This presentation will provide an overview of how the Idaho State Police Forensics Laboratory, and the Idaho State Police's SAKI (Sexual Assault Kit Initiative) Cold Case Team, worked in conjunction with the Pocatello Police Department and Bonner County to identify partial skeletal remains.

On July 13, 2024, partial skeletal remains were discovered near the Pacific Steel & Recycling trailhead by the Portneuf River. The Pocatello Police Department responded and recovered the remains. The state lab and SAKI team worked together with law enforcement and the coroner's office to identify the remains. The identity of the remains will not be released or discussed during the presentation due to the ongoing investigation.

Jerrie Northrup

Jerrie is a University of Idaho and Idaho POST graduate. He spent many years with the Kootenai County Sheriff's Office. He retired in 2023 as the lead Major Crimes Detective, and Chief Tactical Flight Officer for KCSO's Regional Air Support Unit. He then joined ISPFS SAKI Team as Cold Case Investigator for Northern Idaho.
